## 2. About Us

---

Sahari Al Araf Trading Est. (SAATE) is an Omani transport, logistics and construction services provider established in 2002. Since its founding, SAATE has grown into a trusted, one-stop-shop partner to the oil and gas industry in the Sultanate of Oman, with a long-standing track record built on close working relationships with PDO, OXY and other major operators.

SAATE's core strength lies in the transportation of materials, chemicals and heavy equipment to oil and gas sites across Oman, supported by a dedicated logistics team and a network of sound logistical planners who coordinate daily fleet movement to ensure wide coverage at cost-effective rates. All policies and procedures covering operations and QHSE have been reviewed and audited by OXY, PDO, Schlumberger and Weatherford, placing the company in a strong position to win and deliver on contracts across the industry.

Building on this transport and logistics foundation, SAATE's capability has been further strengthened through its affiliation with specialist mechanical, civil and drilling-rig construction teams and technical equipment suppliers active in the same sector. Together, this combined capability spans mechanical construction and pipeline/flowline works, civil and earthworks including rig-pad and access-road construction, water-well and cathodic-protection drilling, environment management, manpower supply, and the supply of HSE, gas-detection, drilling-chemical and oilfield safety equipment sourced from internationally recognized principals.

With a well-trained, qualified workforce, a versatile equipment fleet, and Nebosh-qualified HSE advisors at all locations, SAATE is positioned to deliver reliable, high-quality, and safe services across the full lifecycle of oil & gas field operations — from earthworks and drilling through to construction, commissioning, logistics and ongoing maintenance.

## 3. Vision, Mission & Core Values

---

### Company Vision

- To be recognized as a company and partner of choice in the oil and gas industry for delivering on our promises, pioneering new opportunities and approaches, and bringing value to our industry, shareholders and community.

### Company Mission

- To execute projects in the field of oil and gas in the Sultanate of Oman while exceeding customer expectations, achieved through our employees — our most valuable asset — who are confident, competent and caring.

### Core Values

- **The Trust Earned** — trust is built through consistently delivering on our promises to colleagues, partners and shareholders, built on accountability and mutual respect.
- **Our Drive to Succeed** — confident, committed and open-minded in pioneering better solutions and approaches.
- **Putting the Company First** — a collegial culture and flat hierarchy that considers different points of view to deliver the best outcome for the business.
- **Enjoying the Challenge** — always striving to be better and proud of the integrity behind everything we deliver.
- **Excellence & Integrity** — Ethical Conduct, Trustworthiness, and Environmental & Social Responsibility underpin every project we undertake.

## 4. Health, Safety & Environment (HSE) Policy

---

### HSE Vision

SAATE endeavours to be an organization that demonstrates a genuine 'safety culture' and neither causes, nor provides any opportunity to cause, harm or injury to people, or damage to the environment. Our HSE motto is 'No Harm to People, Asset and Environment'.

### HSE Policy Principles

- All safety incidents, injuries, occupational illnesses and environmental damages are preventable.
- All operational and hazardous exposures can be safeguarded.
- Safety assessment of all critical and high-risk activities is vital.
- Working safely is an immutable condition of employment.
- Awareness and training of all employees to work safely and in an environmentally-friendly manner is part of our business process.

### Occupational Health & Safety

Training and HSE remain a central focus of the company. Nebosh-qualified HSE advisors are maintained at all SAATE locations, and drivers are trained to a Safe and Fuel-Efficient Driving standard. Employees are expected to comply with workplace health and safety systems, use correctly certified tools and PPE, report accidents, incidents, pain or discomfort promptly, and help new staff and visitors understand site safety procedures.

### Environmental Policy

SAATE is committed to outstanding environmental performance and sustainable development. Commitments include reducing demand on natural resources and energy, minimizing and recycling waste, preventing pollution incidents through compliance with all relevant legislation, and maintaining continuous improvement of environmental policies and practices across all operations.

### Defensive Driving Policy

To eliminate unnecessary risk on the road, SAATE enforces a Defensive Driving Policy prohibiting hand-held or hands-free phone use while operating any vehicle on company business, requiring safe pull-over before any call is taken, and applying disciplinary action — up to termination — for non-compliance.

## 5. Quality Policy

---

SAATE is committed to providing complete customer satisfaction to the best of its abilities and to ensuring that all internal procedures and practices are suitable for that purpose. The organization's quality policy is to:

- Satisfy applicable customer, statutory and regulatory requirements, ensuring they are determined, understood and consistently met.
- Pursue continual improvement of the Quality Management System (QMS) in line with ISO 9001:2015.
- Ensure all personnel are aware of their individual roles and responsibilities within the Quality System.
- Provide the resources needed for the QMS, including training, support and encouragement.
- Engage, direct and support employees to contribute to the effectiveness of the QMS.
- Establish partnerships with suppliers and interested parties to provide an improved service.

### Quality Objectives

- Provide a value-for-money service and get things right the first time.
- Deliver services on time and with full regard to Health & Safety.
- Maintain an effectively trained staff and management team.
- Make a profitable return to fund ongoing development and growth.
- Improve efficiency through continuous improvements in productivity.
- Analyse customer feedback, financial and business performance data to confirm Quality Objectives are being met, conducting business in an ethical and professional manner.

## 6. Organization Structure

---

SAATE operates under a lean, clearly defined management structure headed by the Managing Director, ensuring accountability and fast decision-making across all functions:

|                       |                                                                                  |
|-----------------------|----------------------------------------------------------------------------------|
| <b>Level 1</b>        | Managing Director — Bakhita Nasser Sayaf Al Durai                                |
| <b>Level 2</b>        | General Manager / Operational Manager                                            |
| <b>Level 3</b>        | Project Manager / Finance Manager / HR Manager                                   |
| <b>Level 4</b>        | PRO / Purchase & Sales / HSE & Quality / Engineering                             |
| <b>Level 5 (Site)</b> | Site Manager overseeing Mechanical, Civil, Transport, GRE/GRP and Purchase teams |

## 7. Fields of Operation & Services

---

### Transportation, Equipment Supply & Logistics

- Transportation of materials, machinery and chemicals to PDO and other oil & gas sector sites across Oman.
- Supply of flatbed trailers, low-bed trailers, water tankers, vacuum tankers, canter buses and double-cabin pickups.
- Supply of excavators, backhoe loaders, boom loaders with fork, wheel loaders, cranes and HIAB-mounted trucks.
- Water supply to oil & gas sector locations.

### Mechanical Construction

- Flowline construction, fabrication work, pipe supports, brackets & fittings.
- Anchors & flange fabrication and installation; steel structure works.
- Hook-up removal / reinstallation (rocket spool modification as required).
- Hydro-testing, pre-commissioning and commissioning support.
- Leak section replacement with LLRTP and maintenance for all PDO facilities.

### Civil & Structural Works

- Major earthworks for rig well pad construction and access road construction & maintenance.
- Civil infrastructure (roads, buildings), trenching in all types of terrain.
- Cellar pit & grating works, concrete works, sleepers / foundation precast & installation.
- HDPE pipe laying and ducting, temporary facilities and station construction.
- Right-of-way construction, sign board installation, fencing dismantling & installation.
- Process plant, pipeline and flowline civil works.

### Drilling Rig Services

- Drilling of pole holes, earth pits and water wells.
- Drilling of water supply wells.
- Drilling of deep ground bed cathodic protection wells.

### Manpower Supply

- Supply of mechanical / civil engineers and PDO-approved Permit-to-Work holders and signatories.
- Supply of PDO-approved welders, fitters, grinders, riggers, banksmen, steel fixers, scaffolders, masons, carpenters and helpers.
- Supply of OPAL-approved LD/HD and LV/HV drivers, and equipment operators (excavator, backhoe loader, wheel loader, crane, HIAB, boom loader).

### Environment Management

- Cellar pit clean-up & disposal.
- Oil spillage clean-up & disposal.
- Hazardous waste handling & disposal.

### Environmental Monitoring & Testing Services

- **Stack and Process Monitoring** — Emission compliance testing, process optimization, commissioning testing, CEMS verification testing.
- **Ambient Air Quality Monitoring** — Baseline environmental monitoring and dispersion modeling, medium and long term.

- **Occupational Hygiene** — Exposure monitoring to dust, fumes and other organic compounds; Indoor Air Quality (IAQ) sick-building investigations.
- **Noise and Vibration Monitoring** — Short- and long-term environmental noise and occupational noise exposure investigations.
- **Analytical Chemical Analysis** — Analysis of soils, ground water and wastewater for metals, inorganic and organic compounds, pesticides, PAHs and PCBs, TPHs, VOCs, SVOCs, etc.; contaminated soil, water and microbiological investigations.

## **Safety Signage**

Standard Signs, Mandatory Signs, Prohibition Signs, Warning Signs, IMO Signs, Fire Fighting Signs, Photoluminescent Signs, Customized Safety Signs.

Through its affiliated technical-equipment supply channel, SAATE also sources and supplies a wide range of internationally certified HSE, gas-detection, drilling-chemical and oilfield equipment — see Section 8 for the full list of principal brands and product ranges represented.

## 8. Principal Brands & Products Represented

---

Through its affiliated technical equipment supply channel, SAATE offers access to a wide catalogue of internationally recognized brands and product ranges serving the oil & gas, HSE and industrial sectors.

### **Oil / Chemical Spill Control — ERNi, Lubetech**

Spill Absorbent Pads, Booms, Granules, Socks, Oil Spill Response Kits (20 to 1000 litres), Drum Handling & Storage Equipment, IBC Storage, Safety Flooring, Drain Protection & Bio-Remediation, Fluid Handling, Spill Response Training, Spill / IBC Pallets.

### **Gas & Radiation Detection — Crowcon, RAE Systems, Honeywell, WatchGas**

Hand-held, personal, transportable, wireless, fixed and software-based detection solutions, including Gas Pro PID, Gas Pro, Crowcon Clip, Detective+, Detective Wireless, Gasman, Tetra 3, I-Test & I-Test Manager, Triple Plus+, fixed detectors including X-Gard, X-safe, IREX, IRmax, TX Gard-IS+, TX-Gard Plus, Flam Gard Plus, Open Path Gas Detection and Flame Detectors; control panels including Gas Flag, Gas Master, Vortex, Vortex FP, Gas Monitor, Hydra 32 and Hydra 256; and Q-Rae, Ultra Rae 3000, Toxi-Rae, Multi Rae Lite, BW XT II, BW XL, BW H2S 24-Month and 36-Month cartridges. Calibration and recertification of gas detectors is also provided.

### **Calibration Gases — ERNi, Air Liquide, Calgaz**

LEL, H2S, CO, O2/N2, SO2, NO, NH3, HCL, PH3, CL2 and NO2 calibration gases, available in different sizes and concentrations with regulators and compact carrying cases.

### **Respiratory & Fall Protection — North, Salisbury, Sperian, Fenzy**

Complete range of SCBA & escape sets, cascade systems, Miller fall protection systems, first responder products, Junkin scoop stretchers and oxygen resuscitators.

### **Cleaning & Surface Treatment Chemicals — ERNi, Arrow Solutions**

ERNi environmental, water-based, biodegradable, solvent-free multi-surface cleaner designed to clean and degrease onshore/offshore rigs and platforms, circulation tanks, beam pumps, tubulars, drilling equipment and BOPs, plus water-based hand wash and corrosion protection. Arrow Solutions industrial degreasers, solvents, lubricants, anti-spatter and anti-foam rig wash, surface treatments (rust removers and convertors, descalers), and skin-care products (barrier creams, hand cleansers, sanitizers).

### **Drilling & Production Chemicals — ERNi**

Corrosion inhibitors, biocides & scavengers, lost circulation material, lubricants, spotting fluids, completion workover products, fluid loss control, oil-based mud system products, shale stabilizers, weighting materials and clay viscosifiers; cement additives (accelerators, defoamers and foamers, cement matrix intensifier, preflushes and spacers, extenders); formation control and friction reducers; gas control additives and retarders; stimulation chemicals (acidizing and fracturing chemicals); production chemicals (scale inhibitors, demulsifiers, anti-sludge agents, biocides, paraffin control / wax inhibitors); and refinery chemicals — including alcohol-based defoamer, bentonite, butanol, calcium bromide liquid, calcium chloride 89% prills, caustic soda flakes and prills, citric acid, diethanolamine, drilling detergent, gilsonite, guar gum, hematite, KCL, methanol, musol, soda ash (dense grade and light), sodium bicarbonate, sodium chloride, sodium bromide, toluene, tri-ethylene glycol and xanthan gum.

### **Drilling Equipment**

BOP accumulator units, hydraulic tongs, swivel joints, hammer unions, ring joint gaskets, flanges & spools, manifolds, mud pump expandables, gate and butterfly valves, high-pressure test units, data headers, positive chokes, pup joints; API 16A double studded adapter flanges, clamp and loose connections; API 6A studded, adapter and spacer spools; bull plugs, valve removal plugs, BOP control units, diverter control panels, hydraulic power units, adapter &

crossovers, clamps & hubs, remote control panels, steel hose assemblies, subsea equipment, plug and check valves, integral fittings, and tees & crosses.

### **Emergency Showers — ERNi Enware**

Emergency deluge showers, combination showers, self-contained and gravity-fed eye/face washes, laboratory emergency and decontamination multi-spray showers, and portable decontamination equipment, accessories & spare parts.

### **Test & Measurement — Extech Instruments**

Airflow meters, borescopes, cable testers, calibrators, clamp-on meters, electrical testers, gas analyzers/testers, humidity meters, lab instruments, light meters, moisture meters, multi-meters, oscilloscopes, power analyzers, power supplies, pressure meters, refractometers, sound meters, specialty meters, stopwatches/timers/clocks, tachometers/stroboscopes, thermal imaging cameras, thermometers and water quality meters.

### **Oil Handling — OilSafe**

Oil Safe Kits, Stretch Spout Lid, Stumpy Spout Lid, Mini Spout Lid, Utility Lid, standard and premium hand pumps, storage lids, spout extensions, and 3, 5 & 10 quart/litre drums.

### **Safety Cabinets**

Flammable cabinets, drum storage cabinets, paint storage cabinets, pesticide storage cabinets, Hazmat cabinets, corrosive cabinets and emergency preparedness cabinets.

### **Insulation Safety Equipment — Sofamel**

Insulation stools, insulation mats & blankets, insulation dielectric boots, insulation bags & covers, insulation poles, earthing & short-circuit equipment, voltage detectors, rescue panoply and manoeuvring & rescue kits.

### **Adhesives, Sealants & Tools — Weicon**

Two-component adhesives (epoxy resin putty, repair sticks, plastic metal, urethane); one-component adhesives (Plastic-o-Seal, thread sealing cord DF175, rubber-metal adhesives); elastic adhesives/sealants (silicone, Black Seal, Flex 310/310M, Flex+Bond, Fast-Bond, Speed-Flex, Aqua-Flex, Solar-Flex); easy-mix adhesives (Epoxy Minute, Fast Metal Minute, Easy Mix Epoxy, RK-Structural); technical sprays, aerosols, liquids and fluids for cleaning, degreasing, lubrication, release and anti-corrosion coating; high-performance assembly pastes and anti-seize sprays; all-round lubricants and greases; and cable/wire/multi-purpose stripping tools, accessories & spare parts.

### **Lockout-Tagout & Identification — Brady, Scafftag, Master Lock**

Safety management systems and bespoke tagging systems for scaffolding, ladders, confined space, lifting equipment, chemicals and forklifts; identification systems, labels and sleeves for pipes, valves, electrical cables and other applications.

### **Weld Purge Monitoring — Huntingdon Fusion Techniques**

Agweld PurgEye hand-held, dustproof and waterproof weld purge monitors; the Nano Super low-cost weld purge monitor; weld purge units with mechanical gas pumping; the all-in-one computerized colour touch-screen weld purge monitor; and the Mark V Weld system.

### **Radiation Monitoring — Tracerco**

Intrinsically safe radiation NORM monitors, dose rate monitors, potash monitors, personal electronic dosimeters, mud monitors, contamination monitors and X-ray radiation monitors.

### **Compressors & Breathing Air — Bauer Kompressoren, Mako**

Econo Air and Air Charger compressors, breathing air modules (modular and horizontal), Air Center systems, mobile solutions, water-cooled packages, fill stations, air management and electronic/purification monitoring, and mobile/oxygen/stationary containment fill stations.

## Material Handling Equipment

Sale, examination and testing of lifting equipment, height safety equipment and accessories, and assembly of wire and chain slings, covering lifting, jacking, winching, materials handling, load restraints and height safety.

## Fire Protection — Loyal

Fire extinguishers, fire blankets, hose reels & cabinets, hydrants, fire pumps, extinguishing systems, fire alarm systems, sprinkler systems, foam systems and valves.

## Flame Retardant Apparel

100% customized coveralls, winter wear, bib overalls, and hospitality/healthcare FR apparel.

## PPE & Medical Equipment

Head, hearing, eye/face, respiratory, foot, welding, hand, marine and road safety protection; first aid; explosion-proof torches & headlights; cold weather hood systems; bump caps; fresh air supply equipment. Medical equipment spans ambulance/clinic/infusion/diagnostic equipment, stretchers, resuscitation and AED accessories, immobilization and transport systems, survival/first aid/burn kits & consumables, medical clothing, rebreathe pocket masks and defibrillators — together with European-standard single-use respirators, lightweight and cost-effective respirator masks, twin-cartridge half and full masks, air-fed visors, and air-fed grinding/welding hoods and shields.

| LD / LV Drivers (Omani)                          | 10        |
| HD / HV Drivers                                  | 11        |

### Fleet & Equipment

|                                       |         |
|---------------------------------------|---------|
| Double Cabin Canter 3 Ton             | 5 No's  |
| HIAB Mounted Truck 10 Ton             | 4 No's  |
| 1 Ton Pickup / 1.5 Ton Double Cabin   | 3 No's  |
| Welding Generators (incl. 500 Miller) | 3 No's  |
| Low Bed / Flat Bed Trailer            | 1+ No's |
| Dozer                                 | 2 No's  |
| Grader                                | 2 No's  |
| Wheel Loader (with Fork)              | 2 No's  |
| Roller                                | 2 No's  |
| Bus 24 / Coaster 20 Seater            | 2 No's  |
| Tipper Trucks 18M3                    | 4 No's  |
| Water Tanker up to 12,000 Gallons     | 3 No's  |

|                                              |           |
|----------------------------------------------|-----------|
| <b>Vacuum Tanker</b>                         | Available |
| <b>Backhoe Loader (incl. JCB 4CX)</b>        | 1 No's    |
| <b>Excavator (220 / 350 / 400 Komatsu)</b>   | Available |
| <b>Dewater Pump</b>                          | 1 No's    |
| <b>40-Foot Container / 100 SQM Warehouse</b> | 1 No's    |
| <b>Crane (25 Ton – 100 Ton)</b>              | Available |
| <b>4WD Car</b>                               | 2 No's    |
| <b>Concrete Mixers</b>                       | Available |
| <b>Drilling Rig</b>                          | 1 No's    |

## 10. Project Experience

Track record delivered across affiliated construction and equipment-supply operations supporting PDO and its principal contractors:

| Description of Works                                                                         | Client                                | Duration            | Location         |
|----------------------------------------------------------------------------------------------|---------------------------------------|---------------------|------------------|
| Sleeper installation & CS pipe welding at MPP3 Project (mechanical flowline construction)    | Al Turki Enterprises                  | Mar 2022 – Dec 2023 | Marmul           |
| FBE coating & CS bare pipe welding, OMC-Qarnalam (mechanical flowline construction)          | Galfar Engineering & Contracting SAOG | Jul 2022 – Ongoing  | Qarnalam         |
| Earthworks & civil works — construction of rig locations and access roads (Contract SCC-122) | Sarooj Construction Company LCC       | Jun 2022 – Ongoing  | Fahud & Yibal    |
| Y04957 — Flowline construction / sleeper ODC contract, CS pipe welding at Yibal              | Al Haditha Petroleum Services         | Jun 2023 – Ongoing  | Yibal            |
| Construction of HDPE pipeline network                                                        | SAS                                   | Jan 2012 – To date  | PDO              |
| Supply of heavy equipment                                                                    | SAS, AHPS, STS, Sarooj                | Jan 2012 – To date  | All PDO          |
| Drilling of earthing holes and water wells                                                   | Non-PDO locations                     | Mar 2019 – To date  | All Oman         |
| Trenching and pipe laying                                                                    | Orbit Engineering                     | Jan 2023 – Dec 2025 | Fahud to Awafiya |

## 11. Target Clients

SAATE and its affiliated operational teams have supported, or continue to target, the following organizations across the Omani oil & gas and construction sector:

## 12. Certification & Registration

|                                   |                                              |
|-----------------------------------|----------------------------------------------|
| Commercial Registration No.       | 7062800 (Active, Individual Firm / Merchant) |
| Registration / Establishment Date | 24 March 2002                                |
| CR Expiry Date                    | 23 March 2027                                |
| JSRS Supplier Code                | OM108820                                     |
| JSRS Registration Date            | 24 March 2019                                |
| JSRS Valid Till                   | 04 July 2028                                 |
| Special Status                    | PDO LCC                                      |
| National SME Classification       | SME – Micro                                  |
